Talk Saves Lives: An Introduction to Suicide Prevention is a 45-60-minute presentation that covers the scope of this leading cause of death, what the research has found to be the warning signs and risk factors of suicide, and the strategies that prevent it.

Talk Saves Lives: Training for Presenters is a 2.5-hour training to provide interested volunteers with the information and skills needed to successfully present Talk Saves Lives in their communities.

Introduction to Supporting Those At Risk is a 60-minute presentation that provides information and resources on how to support someone in your life with lived experience. Lived experience is defined as a suicide attempt and/or experiences with suicidal thoughts.
